"In case there is a violation of the provisions of the said rules in respect of collection of fees, prompt action is not taken by the District Level Education Regulation Authority. In fact, under sub-rule (2) of Rule 15, the said Authority has a power to take action suo motu or even on an oral complaint made by any person interested. The entire object of the said rules will be defeated if the District Level Education Regulation Authority is not directed to dispose of the complaints either suo motu or otherwise within a specified time limit. There is an appeal provided against the order of the said Authority under Rule 17. Therefore, it will be appropriate if the state Government issues directions to all the
District Level Education regulating Authorities constituted under Rule 16 to ensure that the complaints or suo motu proceedings are disposed of within a particular time span.”
